CONSERVATION DEPARTMENT

To whom it may concern:

Please be advised that I give Tyler Kimball permission to speak on my behalf at the Conservation Meeting taking place this evening at 7:00pm. Tyler will be speaking for me regarding my road and an easement for the Solar Company to install a 100-foot roadway extension from my driveway to their current T turn-around destination. Firetrucks have used this road for the past 38 years with no issue regarding size, wight or accessibility.

I will negotiate directly with National Grid to put a shut-off on my property through the appropriate persons that handle this issue.

If you have questions or require additional information, please contact me at 978-361-5230

Sincerely,

Albert Duchemin
