Mayor Secures Federal Grant to Replace Streetlight Bulbs

Mayor James J. Fiorentini announced that the City has received 90 LED bulbs to replace the old high pressure sodium bulbs currently in many of the fixtures. The bulbs and the labor to install them is fully covered by the grant, there is no cost to the City. The grant was funded by the United States Department of Energy and the grant was for \$90,000. The new bulbs are more energy efficient and will be installed in April.

Mayor Fiorentini stated:

“I want to thank Congresswoman Tsongas for her support of this grant and we appreciate all of her work for Haverhill.

“The new bulbs will be more energy efficient and there is no cost to taxpayers.”
